

# Keynote Speaker Profile

Greg Whitby

Greg Whitby is the Executive Director of Schools and leads a system of approximately 80 Catholic schools serving the Catholic community of greater Western Sydney.

He has 30 years combined experience in K-12 schooling and senior system leadership.

In recognising the critical link between good teaching practice and student learning outcomes, Greg is working to build the capacity of school leaders and teachers through a whole-of-system approach to professional learning.

As a regular speaker at national and international conferences, Greg talks about the key areas underpinning a new model of schooling for today's world: de-privatising teacher practice, personalising student learning and ICTs as enablers to facilitate deep learning.

**St. Marks Catholic College** is a relatively new school that has been designed to meet the current and future need of students in the 21st Century. The school is fully covered by a WIFI network and every student carries a laptop. This venue gives us the opportunity to run a fully WIFI conference - So bring your own WIFI equipped laptop and experience the use of Web 2.0 technologies during the conference.
